PERSONAL PROJECTS

Book Store (04/2023 - 04/2023)

- Developed a Bookstore app using the API provided in the Postman course, enabling users to explore books, authenticate, and perform various actions such as placing, updating, and deleting orders.
- Developed with latest **React, Nextjs, redux-toolkit** & Tailwind CSS.
- [Live at: https://simple-book-store-bilal-siddique.vercel.app/](https://simple-book-store-bilal-siddique.vercel.app/)
- [GitHub: https://github.com/BilalSiddique/wmd-next-books](https://github.com/BilalSiddique/wmd-next-books)

Next JS Blog Website (01/2023 - 02/2023)

- Developed a Blog Website using **Contentful(CMS), React & Next.js**.
- Utilized Next.js Server functions to leverage SSG (Static Site Generation), resulting in the generation of pages during build time and significantly improving site performance.
- [Live at: https://random-blogs-by-bilalsiddique.vercel.app/](https://random-blogs-by-bilalsiddique.vercel.app/)
